Revision of the 2024 Event Calendar

Date of Update: 15 May 2024

We have reviewed our NZ National Calendar and made some significant changes. Please see the revised 2024 Calendar for dates and locations. A number of shows have been removed. And we will now be running one North Island National Qualifier Event (Auckland) and one South Island National Qualifier Event (Dunedin) and the NZ National Championships (Invercargill)

This was a huge call for us to make. But we have reflected on the Lower North Island Championships cancellation, and we have consulted with our NABBA Executive and Event Organisers. The logical decision has been to reduce the number of events on the Calendar this year.

The two key factors in making our decision, are low athlete numbers at events, the personal health and wellbeing of our Event Organisers.

We feel there are still lingering impacts from covid, and economic factors that have had an impact on people and their recreational activities. This has had some influence on our athletes, Area Reps, Sponsors and volunteers.

We apologise for the implications of the announcement, especially for athletes that have been training towards events that have been taken off the calendar. But we are hopeful the announcement at this time, allows you the opportunity to reassess your competition plans for the year, and still compete regionally and nationally this year.

We look forward to hosting a great Lower North Island Qualifier in Auckland, South Island Qualifier in Dunedin, and NZ National Championship in Invercargill.

Yours in Sport

Jim Pitt

Nabba NZ President
