

Stage shot photography for the NABBA Lower North Island 2023 will be covered by [Rob Caven Photography](#)! Rob has several years of experience photographing body-building events, and highlight galleries of his previous work are available to view on his website in the galleries section, go check them out at the link below!

You will receive a MINIMUM of 12 images for your category, without watermarks, which will be made available to you via your own personal Dropbox folder. These images will be sized appropriately for social media and printing up to size 11x16”.

Once you have your photos, there may be one or two you wish to print to a much larger size and if that’s the case Rob has you covered! You can message him and he will provide you with the full resolution images correctly prepared for printing, at NO additional charge. You can also let Rob know if Dropbox isn’t your thing, as he can also deliver via his personal client delivery galleries.

The vast majority of athletes who have booked shots with Rob receive more than the 12 shots, sometimes way more! This of course depends on variables such as your stage “up-time”, your positioning during rounds and pose downs and the range of poses you do. Rob asks you to please take full advantage of the posing opportunities within the guidelines for each Category, and during pose-downs. These are your memories, so have fun...and have at it!

Shots can be ordered via a simple online form. Rob will invoice shortly after receiving your order. Please note invoices must be paid prior to image delivery.

Order your shots [here](#)!

Rob’s site is [here](#)! Browse to the Galleries section to check out his previous body building event work!

Also, Rob does have a [Facebook](#) page but he’s much more of an [Instagram](#) fan and is more active there!
